KEY FEATURES

- Double and Single glazed options available
- Square or triangular glazing bars available

INTERNAL DOORS

The glazing bar system can be configured in any arrangement, using single or in multi-bars to create a heritage, steel window look.

With a choice of configurations, including fixed screens, single doors, or French doors, you can tailor your space to suit your style.

The SL50 boasts a positive environmental impact, as it is designed for local fabrication using aluminum, one of the most recyclable materials.

ADD EXTRA CHARACTER TO YOUR HOME

Stylish Design

Door Performance

The door system is designed to accommodate 6-8mm single glazed & 28mm double glazed units.

Maximum Door Leaf Size / Weight			
Door Leaf configuration	Max Leaf Width (mm)	Max Leaf Height (mm)	Max Leaf Weight (Kg)
Hinged Door	1000	2200	100kg

Minimum Door Leaf			
Door Leaf configuration	Min Leaf Width (mm)	Min Leaf Height (mm)	*For a smaller door please talk to the Technical team.
Hinged Door	700	1900*	

Versatile Applications

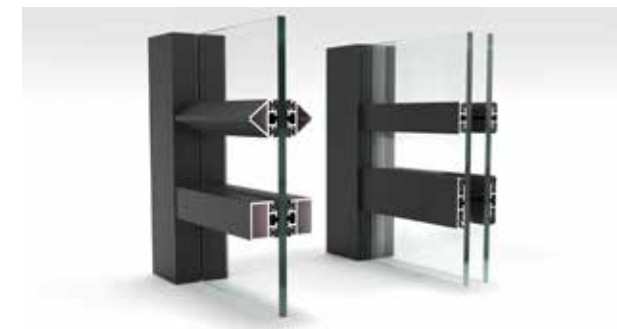

Ideal for separating office spaces, creating private dining / gym areas, or just adding a distinctive element to your home.

Colour Finish

The door system is stocked in RAL 9005 (Black) Textura finish. Other RAL finishes are available on request.

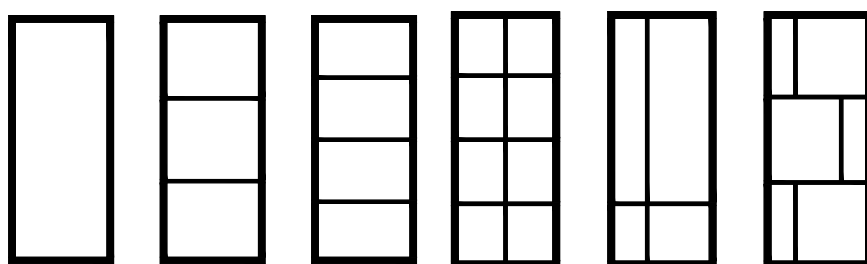

Glazing

The system is available either single or double glazed allowing all design requirements to be met without compromising the stunning overall appearance of this product. Single glazed bars come in triangular or square options. The glass is positioned centrally within the door or screen section to help keep its sleek design appearance from whatever side it is viewed.

GLAZING BARS

The glazing bar system can be configured in any arrangement, using single or in multi-bars to create a heritage, steel window look. With a choice of configurations, including fixed screens, single doors, or French doors, you can tailor your space to suit your style.

Care & Maintenance

Cleaning

It is recommended that framing be cleaned every 3 to 6 months maximum using non-alkaline detergent and warm water applied with a soft cloth or sponge. Abrasive cleaners, solvents or other cleaning agents should not be used.

Handles

Check the smooth operation of handles, locks and the tightness of fixing screws regularly.

Hinges

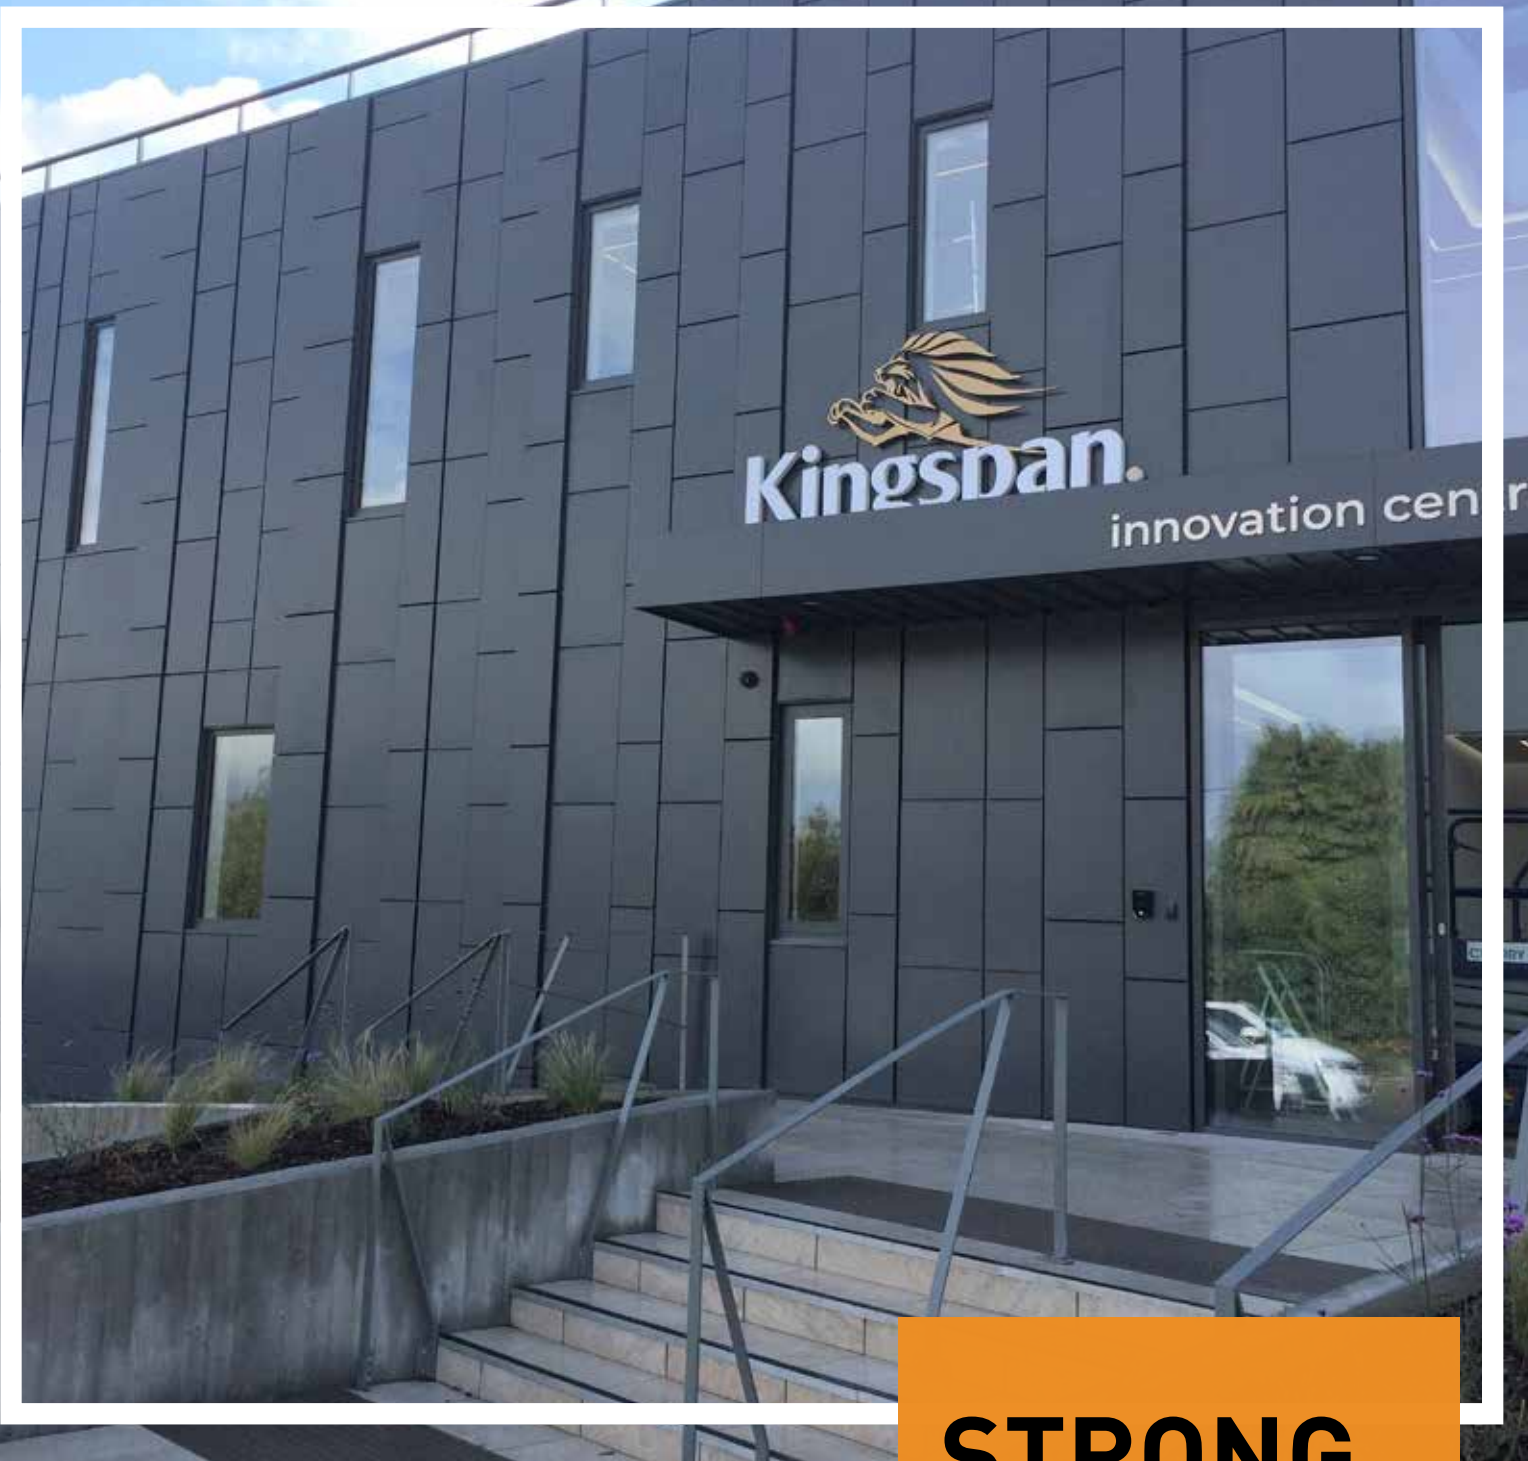

Must be kept free from dirt, debris and any other obstructions.

Whats Next?

Now all you have to do is choose the size of door, the configuration, hardware style and let us do the rest.

Innovative glazing bar clipping system.
